PROFESSIONAL EXPERIENCE

- Present
|
2021 Jul • **Senior Consultant, Data Analytics**
PwC Australia  Sydney, Australia
 - Utilised data analysis and visualisation techniques to provide clients with powerful business insights regarding their data. This would in turn help them make informed strategic decisions. Tools used include Alteryx, SQL, Power BI, Python, R, Tableau and Qlik Sense.
 - Assisted clients in the identification and management of business risks by assessing the current state, prioritising improvements and conducting projects to reduce risk, remediate issues and improve business process and systems
 - Identified and remediated control and performance gaps compared to leading practice, helped clients gain business insights, reduce risk, and increase value
 - Worked closely with both internal and external stakeholders to initiate decisions and execute implementation that drive projects
 - Provided coaching and mentoring to junior team members which help them grow
- 2021 June
|
2020 Jan • **Consultant, Data Analytics**
PwC Australia  Sydney, Australia
 - Worked on data analysis and visualisation, and bring data analytic techniques to bear on a wide variety of problems.
 - Developed and maintained easy-to-use product and provided training and documentation for both internal and external parties. Tools used include: Google App Script, Python and VBA
 - Highly experienced in data remediation projects. Helped clients understand and remediate payroll compliance issues.

Junior Financial Analyst

UBI Logistics (Australia) Pty Ltd

📍 Sydney, Australia

- Developed a procedure to analyse data, identify discrepancies and design reporting mechanism, which allow on-time and accurate measure of the company performance. This procedure is still utilized and has been able to recover more than 120,000 AUD in the past 1 year, which otherwise would be lost because of the information inaccuracy.
